- 12- 1) comfortable                      2) very comfortable                      3) most comfortable                      4) more comfortable

**Part C: Reading Comprehension**

It may be interesting for us to know something about birds. Birds do not fly high up in the sky because the thin air there does not hold them up and also it becomes difficult for them to breathe. They fly near the ground so that they can see where they are and look for places they know. Some sea birds fly so low over the sea that waves often hide them. There is a short distance between summer and winter homes of some birds while others fly thousands of miles. Many birds fly at night, so that they can rest and eat during the day. They know when to fly south. Perhaps, cold weather and shorter autumn days tell them when to migrate. They fly south because they know when winter comes, there will be little food left for them to eat in the north. But there, they can find plenty of insects, seeds, and fruit to eat. Still, we do not know many things about birds.

**13- According to the passage, some birds start to fly south in .....**

- 1) autumn                      2) spring                      3) summer                      4) winter

**14- Birds do not fly high up in the sky because they can't ..... there.**
