Part C: Reading Comprehension

If you wish to train yourself to be a good observer, you must do more than just see things. You must learn to look for interesting details that make one plant, object, or building different from others. You must see deeply; that is, you must see with your mind as well as with your eyes. Most things when observed carefully, are either interesting or beautiful, or both. All you need to do to become a good observer is to remind yourself, day after day, to see in this way.

13- Good observers usually

- 1) learn from the way things look 2) look for details of things
3) see things as they are 4) separate interesting things from others

14- Most things that are considered uninteresting

- 1) are not beautiful 2) are not important
3) cannot be recommended by people 4) have not been observed well

15- Careful observation of things can be done by

- 1) almost everybody 2) scientists
3) those who are interested in themselves 4) those who live in forests and fields
