

Part A: Grammar & Vocabulary

- 1- I think it's unethical for you to accept a job you know you can't do,**
 1) don't I 2) don't you 3) isn't it 4) can you
- 2- If your little sister her hand with a knife, what you do?**
 1) cuts - might 2) cut - will 3) cuts - would 4) cut - would
- 3- Anyone in healthy living should exercise regularly.**
 1) is interested 2) that interests 3) who are interested 4) who is interested
- 4- The temperature of the world's oceans by more than 2 degrees in the past hundred years.**
 1) has been risen 2) has risen 3) was raised 4) has raised
- 5- Family - owned private companies don't usually sell off the business; they pass it on to the next**
 1) generation 2) inspiration 3) confirmation 4) location
- 6- Successful marketing is all about with your customers, and building good relationships.**
 1) replacing 2) connecting 3) guiding 4) informing
- 7- You're not allowed to destroy that old building because it is considered to be an important part of region's**
 1) solution 2) selection 3) principle 4) heritage
- 8- We took on a couple of people waiting in the rain for a bus and gave them a lift.**
 1) honor 2) care 3) pity 4) regret
- 9- If we hadn't seen the TV program, we would have kept on giving money to the charity in the way.**
 1) religious 2) countless 3) ordinary 4) grateful
- 10- We thought he'd been killed, but our prayers were answered when he arrived home**
 1) unexpectedly 2) technically 3) originally 4) entirely
- 11- The government is trying to stop farmers from destroying forests for production.**
 1) crop 2) entry 3) figure 4) issue
- 12- I don't think we should our business in the present economic situation.**
 1) suppose 2) abbreviate 3) compile 4) expand

Part B: Cloze Test

Mother Teresa was a kind woman who ...(13)... her time extremely to helping poor people. Mother Teresa, whose ...(14)... name was Agnes Gencha Bejaxhiu, was born in Skopje, Macedonia, the daughter of a grocer. When she was 18 years old, she entered the order of the Sisters of Our Lady of Loreto, in India. For 20 years, she ...(15)... wealthy girls at the order's school in Calcutta, ...(16)... stood within sight of the city's worst slums. Then one night, she received what she herself ...(17)... as "a call within a call." To sister Teresa the message was clear. She must go among the poor and help them.

- 13- 1) recorded 2) dedicated 3) distinguished 4) regarded**
- 14- 1) immediate 2) complicated 3) essential 4) original**
- 15- 1) was taught 2) taught 3) has taught 4) has been taught**
- 16- 1) which 2) where 3) what 4) that**
- 17- 1) described 2) expected 3) recommended 4) founded**

Part C: Reading Comprehension

Passage 1

Global Warming is a term used to describe an increase in the average surface temperature of the Earth over a period of time. It can refer to past periods of warming, such as occurred about 15,000 years ago, towards the end of the last Ice Age, but it is usually used to mean the change in the climate that is thought likely to occur as a result of the greenhouse effect, as explained below.

The present average surface temperature of the Earth is about 15°C (59°F) and this varies by a few tenths of a degree each year. Over longer periods of time, the Earth's surface has been both cooler (perhaps about 11°C or 12°C (between 52°F and 54°F) during the Ice Ages, or glacials) and warmer (perhaps about 16°C (61°F) during some periods between the Ice Ages- the interglacials). Over the past 100 years or so, the average surface temperature has increased by about 0/5°C (1°F).

The most probable explanation for the present global warming is that it is the result of increasing concentrations in the atmosphere of greenhouse gases - such as carbon dioxide, methane, and chlorofluorocarbons - which allow energy from the Sun to reach the Earth, but prevent some of it from escaping back into space. These gases have been steadily building up for over 100 years, largely as a result of mankind's use of fossil fuels, such as coal and petroleum, to provide energy. Since we will almost certainly continue to rely on fossil fuels as our main source of energy for many years to come, and since the Earth's population is expected to have doubled by the year 2100, the concentrations of greenhouse gases will continue to rise throughout the next century. It is estimated that global warming will increase the average surface temperature of the Earth by between 1°C and 2°C (2°F and 4°F) by the year 2100.

18- What is best definition for global warming?

- 1) A collection of different climates around the world.
- 2) The change in the climate that happens as the Earth grows older.
- 3) An increase in the average surface temperature of the Earth over a period of time.
- 4) The past periods of warming about 15,000 years ago, towards the end of the last Ice Age.

19- According to the passage, the surface temperature of the Earth

- 1) is now 16°C
- 2) has increased 0.5°C every year
- 3) was about 11°C during the glacials
- 4) was coolest during the interglacials

20- The present global warming happened because of

- 1) energy escape into space
- 2) the energy flow from the Sun to the Earth
- 3) an increase in some gases in the atmosphere
- 4) the Earth's getting warm during the Ice Ages

21- The word "steadily" in the 3rd paragraph is closest in meaning to

- 1) commonly
- 2) previously
- 3) certainly
- 4) continuously

Passage 2

The game is played for four quarters of 15 minutes each or two halves of 20 minutes each. Playing time may be shortened for schools or for a series of matches played in one day. Two referees control the game, keep the score, and keep time except in internationals.

To start the game, one of the centers passes the ball from the small center circle. This is called a center pass and is also used for restarting the game after a goal. One of the attacking team (the team taking the center pass) must touch or receive the center pass within the center third. After that the ball is thrown from player to player until goal shooter or goal attack receives the ball in the shooting circle and tries to score.

The players may not walk or run while the ball is in their possession, or hold it for more than three seconds. The ball may be thrown or bounced to another player but not rolled or kicked. A player may bounce or bat the ball once before catching it. The ball may be caught while it is in the air but a player may not take the ball out of another player's hands or contact (touch) her in any way. A player standing the correct distance away may block the movement of a player or the flight of the ball. The ball may not be thrown over a complete third of the court. If a player of one team sends the ball out of court, it is thrown in by one of the other team. When a rule is broken, either a free pass or a penalty pass is given to the other team.

22- The passage is primarily written to

- 1) explain some rules
- 2) advertise something
- 3) make some suggestions
- 4) describe the function of a game

23- When one of the centers passes the ball from the small center circle

- 1) the game actually begins
- 2) the game has to be repeated
- 3) an attack has been prevented
- 4) the referee should stop the game

24- Which of the following is forbidden?

- 1) The ball thrown to another player but not kicked
- 2) A player running with the ball in his hands
- 3) The ball thrown from player to player in the shooting circle
- 4) The team in the center circle touching the center pass within the center third

25- What happens after a goal is scored?

- 1) A player may send the ball out of court.
- 2) The ball is bounced to the goal shooter.
- 3) The ball is passed from the small center circle.
- 4) The team taking the center pass receives the center pass within the center third.
