Part C: Reading Comprehension

Books that tell children about the lives of real people, or about real things in the world, are nowadays not at all dull and not at all like lesson books. One of the best of the life stories, or biographies, of famous people is 'Mother Teresa' by Anne Sebba. Other similar books are 'A Hand Upon Time' (about Charles Dickens) and 'Mountbatten: Hero'. Some books are a part of a series, each title a separate biography of some famous person. There are many books about people who live ordinary lives but who represent the changing face of the world. There are books about people who have led their countries through times of great stress, and about people who work for and within a particular belief.

People have differing interests in life, and there are a great many books available to cover most hobbies and leisure activities. Subjects such as music, painting, camping, and crafts are covered for various age-groups, so that readers should always be able to find something of interest.
