In 1876, George Bernard Shaw, a young man of 20, came to London from his birthplace in Dublin, Ireland, looking for his fortune as a writer. He was to become the most famous writer for the theater. His first attempts were not at plays, however. And when his name did begin to be known, it was for his essays, books and speeches on behalf of the Fabian Society. As a young man, Shaw saw the need for changes and reforms in government, and when he became a socialist, he joined the Fabian Society, which had come into being to make the ideas of socialism more widely known and better understood.

Politics was not Shaw's only interest, for he loved art, music, and theater and wrote about these subjects for newspapers and magazines. He himself had a very clear mind, and he wanted to make other people think as clearly as he did about all kinds of subjects. It was for this that he began writing plays, for he felt that he could best do it through them.
