

✚ Use brackets to make each number sentence true.

For example:

$$10-5+1=6 \quad \longrightarrow \quad [10-5] +1=6$$

- $12-4\div 2=10$
- $5+3\times 2=16$
- $20-4\div 4=4$
- $8+4\div 2=6$

✚ Evaluate each expression:

- ❖ $3+5\times 2=$
- ❖ $[8-3] \times 4=$
- ❖ $[12+4] \div 4\times 3=$
- ❖ $7\times [2\times 3] =$
