

\* 1.3. Number patterns

**Remember**

Even numbers make pairs. Odd numbers have one left over.

Count the number of circles and decide if it is an even number or an odd number.

- Ex  .....8..... even odd
- 1  ..... even odd
- 2  ..... even odd
- 3  ..... even odd
- 4  ..... even odd
- 5  ..... even odd
- 6  ..... even odd
- 7  ..... even odd
- 8  ..... even odd
- 9  ..... even odd
- 10  ..... even odd
