

4.2. Graphs, tables and charts

Remember

Writing information in a table often makes it clearer or easier to understand, for example.

Food	Mass
apple	150 grams
banana	210 grams

1) The tally chart shows the number of students attending a club. Two of the entries are missing. Complete the chart.

Session	Tally	Total
1		8
2		
3		9
4		6

2) The chart shows the number of visitors to a Sports Centre during four months.

Month	Number of visitors
January	6055
February	6505
March	6500
April	6550

42

In which month were there the most visitors?
