

$$11 \div V = 11 \times \frac{1}{V} = \frac{11}{V}$$

$$\frac{11}{V} \times \frac{V}{1}$$

$$\frac{4}{9} \div V = \frac{4}{9} \times \frac{1}{V} = \frac{4}{9V}$$

$$\frac{2}{1} \div 3 = \frac{2}{1} \times \frac{1}{3} = \frac{2}{3}$$

$$\frac{3}{V} \div 3 = \frac{3}{V} \times \frac{1}{3} = \frac{1}{V}$$

$$V \div \epsilon = V \times \frac{1}{\epsilon} = \frac{V}{\epsilon}$$

$$\frac{1}{\epsilon}$$

$$\frac{V}{\epsilon} \div \epsilon = \frac{V}{\epsilon} \times \frac{1}{\epsilon} = \frac{V}{\epsilon^2}$$
