There were many more beautiful things in these places before, but humans destroyed them. They hunted animals and harmed nature.</i></p> <p>a. Humans harmed nature to make lakes, plains, and forests beautiful. b. There are many beautiful things in places like lakes, plains, and forests. c. Humans destroyed many beautiful things by hunting animals and harming nature. d. Humans hunted animals and harmed nature instead of destroying lakes, plains, and forests.</p>	۸
۴	<p>متن زیر را بخوانید و به سوالات به صورت خواسته شده پاسخ دهید.</p> <p>We can divide wild animals based on where they live. While some wild animals like monkeys and tigers live in the jungle, others live in the desert. Snakes, types of mice, and lizards are all desert animals. Animals like zebras and leopards live in the grasslands. And of course, fish, turtles, and sharks are sea animals. Jungles, deserts, grasslands, and seas are the natural homes, or natural habitats, of different wild animals.</p>	۹

All the animals live well together in their natural habitats. That doesn't mean they don't hunt other animals. They all get what they need from their habitats. Still, they are part of nature. Each animal plays a role in its natural home. And they don't destroy nature.

**I. Is it true or false? (1)**

22. Some wild animals destroy nature. True  False   
 23. Snakes and lizards are wild animals but turtles are not. True  False

**II. Choose the best answer. (1)**

24. According to the passage, ..... are forest animals.  
 a. leopards                      b. cheetahs                      c. tigers                      d. zebras
25. What is the best topic for the passage?  
 a. how to group animals into wild and farm ones      b. how animals keep nature safe and clean  
 c. how to group animals according to their habitats      d. how animals live in their natural homes

**III. Answer the following question completely. (2)**

26. Name four natural places where wild animals live.  
 .....
27. Where do the wild animals get their food from?  
 .....
