

Language survey: Report

These are the results of our survey on using foreign languages. The results are from interviews with eight people in our class of thirteen, so more than half of the class.

Learning and speaking

Everybody in the group is learning a second language and a few people speak more than two languages. One or two people are thinking of studying languages in the future, but nobody in the group speaks English outside of class.

Internet and social media

Half of the people in the group visit websites which are in other languages. However, less than half of the survey group post comments or messages online in another language.

Other media

Everybody in the group listens to English songs, but only a few people watch TV programmes or films in other languages.

'Do you post comments online in another language?'

- 1 Read the language survey report. How many people are there in the class? How many people watch TV programmes in another language?

In groups ask & answer

Communication survey: questions

Are you learning a second language at the moment?

Do you speak more than two languages?

Do you ever speak English outside class?

Do you ever visit websites that are in another language?

Do you ever post comments or messages in another language?

Do you ever listen to English songs?

Do you watch films or TV programmes in another language?

Home work

A TASK

Do another survey with the questions in the communication survey and write a report about the results.

B THINK AND PLAN

- 1 Ask the questions in your survey and make a note of the results.
- 2 Decide which of the phrases in the language point you need to use.

C WRITE

Paragraph 1: Introduction

Paragraph 2: Question topics

- Learning and speaking
- Internet and social media
- Other media

D CHECK

- expressions of quantity
- *but* and *however*
- the layout and neatness of your report
