Reading (5marks)

For many years people believed that the cleverest animals after man were chimpanzees . Now , however , there is proof that dolphins may be even cleverer than these big apes. Although a dolphin lives in the sea it is not a fish . It is a mammal. It is in many ways , therefore , like a human being . Dolphins have a simple language. They are able to talk to another . It may be possible for man to learn how to talk to dolphin . But this will not be easy because dolphins can not hear the kind of sounds man can make. If man wants to talk to dolphins , therefore , he will have to make a third language which both he and the dolphins can understand. Dolphins are also very friendly towards man . They often follow ships through difficult and dangerous waters.

1 answer the questions.(5marks)

- 1 Which animals do people think may be the cleverest? _____
- 2 what other brings are dolphins like in many ways?_____
- 3 What have scientists discovered about dolphins?_____
- 4 Why is a third language necessary if man wants to talk to dolphins?_____
