

Adventure

You and me
We found adventure
I never dreamed that you would change my world forever
But here we are (but here we are)
I'm ready to conquer
Ready to fight injustice like I'm fighting monsters

Life is black and blue
Happy then it's sad
Just call it an adventure
Then it ain't so bad

Together we touch the sky
Wherever we go we fly
Forever we know adventure's in the air tonight x2
Our dreams will come alive

You and me
We found adventure
In a land of buried mines and buried treasure
This could be
My last adventure
But I will take it
Whether it be pain or pleasure

Life is black and blue
Happy then it's sad
But if you call it an adventure
Then it ain't so bad

Together we touch the sky
Wherever we go we fly
Forever we know adventure's in the air tonight
Together we touch the sky
Wherever we go we fly
Forever we know adventure's in the air tonight
Our dreams will come alive

This is heaven
This is living
Together we touch the sky
This is heaven
This is believing
Our dreams will come alive

Together we touch the sky
Wherever we go we fly
Forever we know adventure's in the air tonight
Together we touch the sky
Wherever we go we fly
Forever we know adventure's in the air tonight
Our dreams will come alive
