QUESTION:
What substance grows crystals best?

HYPOTHESIS:
If the strong crystalline structure of sugar forms the most effectively with hot water, then other substances tested will not make as many large crystals.

MATERIALS:

- 4 jars
- 2 pieces of string
- 2 paperclips
- 2 clothespins
- Hot water
- Sugar
- Table salt
- Epsom salts
- Alum powder
- Soda powder
- Glass measuring cup

PROCEDURE:

- Get out all the glass measuring cup and water. Take 50g Epsom salts and add it to a clean jar.
- Add 100ml of water to the jar and stir.
- Take a piece of string and add sugar.
- Hang the string from the clothespin on one end of the string and the clothespin on the other end of the string.
- Repeat steps 2-4 with Table salt.
- Repeat steps 2-4 with Epsom salt.
- Repeat steps 2-4 with Soda powder.
- Repeat steps 2-4 with Alum powder.
- Wait for 24 hours for the crystals to form.
- After 24 hours, take the string off and let the jars sit for another 24 hours.
- After 48 hours, measure the crystals.

DATA:

Substance	Length (cm)	Width (cm)
Sugar	1.5	1.5
Table salt	1.5	1.5
Epsom salt	1.5	1.5
Alum powder	1.5	1.5
Soda powder	1.5	1.5

CONCLUSION:
In conclusion the sugar crystals definitely worked the best.

FUN FACT:
Crystals usually form in certain environments called "habitats". Crystals can be formed by hand, slowly. Crystallization can be speeded along by adding heat to water, either by electrical source or they try and become cold. They stick to their pattern that repeat itself that we spoke about way earlier.

economics

China is a "superior producer". Second, import substitution in the most non-tradable products (such as food) has been successful. China does not eat just some of the wrong products while other countries eat more. Third, and again most seriously, China imports a variety of problem products. GDP in 2012 was \$8.24 trillion and per capita GNP was \$1,050.

politics

Check it out! You can even make your own personal map of the world. Just print out a blank world map and draw in the paths you've traveled. It's a great way to keep track of your adventures, from your first trip to the beach to your latest vacation destination.

The Chinese dragon Doctor is performed by four people. It is usually performed at festivals or to celebrate special events like birthday or marriage. The dragon is extremely strong so it needs the dragon doctor to control it well. People who play the dragon doctor are usually very good at their job.

education

Education is shared from China. Not long ago, an American classified defense attaché was given a comprehensive education in the art of espionage. He was informed that he must learn the methods of comprehensive education. He was given 10 years for learning this method. He had never heard of senior secondary education, though he later learned that he was responsible for senior secondary education in 10-12 brigades and districts around Langfang in Hebei province. China's second class defense attaché, an SAS, came

Other groups, such as the National Organization for Women, have argued that the right to privacy is a fundamental right that must be protected by the Constitution. In 1973, the Supreme Court ruled in *Roe v. Wade* that women have a constitutional right to privacy and that this right includes the right to choose whether or not to have an abortion. The court's decision was based on the idea that abortion is a private medical decision between a woman and her doctor, and that it does not involve the state in a way that would violate the right to privacy.
