

[Intro]

Hands up - Hands up  
If you feel that sun  
From the mountains down  
To the sea that runs

[Verse 1]

Morning on the rooftops, Smell of bread and tea  
Kids race through the alleys, Shouting "Wait for me!"  
Old stories on the radio, new dreams in my hands  
Writing my tomorrow, In this ancient land

[Pre-Chorus]

We're louder than the traffic  
We're brighter than the rain  
Every corner, Every accent, Sings the same refrain

[Chorus]

This is Iran  
Hear our hearts beat on  
From desert wind  
To a thousand songs

We are the colors of Iran  
Stronger than the storm we stand  
Side by side  
We carry on, We carry on This is Iran

[Verse 2]

Snow on the high peaks, Heat in the southern night  
Lanterns on the balcony, Cities full of light  
Grandma tells in Persian, How the poets dreamed  
I keep their words inside me, Turn them into wings

[Pre-Chorus]

We're dancing in the schoolyard  
We're studying the stars  
Different faces, Different stories  
But they're ours  
They're ours

[Chorus]

This is Iran  
Hear our hearts beat on  
From desert wind, To a thousand songs  
We are the colors of Iran  
Stronger than the storm we stand  
Side by side, We carry on, We carry on  
This is Iran

From Tabriz to Kish, From Shiraz to Mashhad  
Every name, Every street  
Holds a smile, Holds a laugh  
Hand in hand, We rise  
Every voice, One sky  
If you feel that pride, Let me hear your cry

La-la-la-Iran  
Sing it loud  
Iran  
[build  
Crowd vocals]  
La-la-la-Iran  
Everybody sing

[Chorus]  
This is Iran  
Hear our hearts beat on

[Outro]  
Hands up  
For the place we're from  
Past and future meet  
In the same bright sun  
This is Iran  
This is Iran
