

In The Name Of God

Hello, everyone.
Welcome to our new
session. Nice to see
you today

Made by teacher Sasan Ghasemi

Write 3 sentences about yourself on the board.

2 are true, 1 is a lie.

ask questions and try to find the lie.

Look at the picture on
the screen.

💬 In pairs, discuss:

The background is a collage of four images. On the left is a city skyline with a river. On the right is a night city skyline. The top-left image shows a house with a chimney and trees. The top-right image shows the interior of a sunroom with large glass windows. The bottom-left image shows a garden path with plants. The bottom-right image shows a cup of tea on a saucer next to a blanket.

Where is each house?

What kind of weather do they have?

What's different about the windows, walls, and roof?

Sustainable

Good for the planet 
Uses local materials

Sustainable

Good for the planet 
Uses local materials

Sustainable

*Not harmful to the
environment.*

Hot & Dry
Climate

Traditional mud-brick home in Yazd, Iran

Material

Mud brick

Material

Clay

Feature

Thick walls

Purpose

Keeps the inside cool

Tropical

&

Rainy Climate

Material

Bamboo

Material

Palm leaves

Feature

Steep roof

Purpose

Rain slides off quickly

Task 1: Match the Material to Its
Function

Keeps house cool
in hot weather

Light and good
in wet places

Very strong
and safe

Warm and
available in
forests

Smart Buildings

The Future of Living and Working

Made by teacher Sasan Ghasemi

- Two teams
- One student silently acts out a technology (e.g., phone, robot, smart TV)
- No speaking or sound effects
- Team guesses in 30 seconds.
- 1 point for each correct answer

Everyday Problems

Forgetting to turn off the lights

Worrying if the door is locked

Arriving home to a cold house

Discussion – What If...?

How can technology solve these problems?

What if your house could think for you?

Smart buildings use technology and AI to:

- ✓ Make life easier
- ✓ Increase safety
- ✓ Improve energy-efficiency

Key Feature 1 – Automatic Lights

Lights turn
on when you enter

Key Feature

1 – Automatic
Lights

Turn off automatically
when empty

Save
ENERGY

Purpose

Saves energy

Key Feature 2 – Smart Thermostat

Learns your routine

Adjusts based on weather and time

Keeps the house comfortable
