This is a classroom in a primary school in South Korea. The classroom is very high-tech. There are some students on the floor. They are playing with a robot dog. Is there a teacher? Yes, there is, but the teacher is a robot! It is difficult to find English teachers in South Korea, so they are starting to use robots instead. The robot can speak, and correct pronunciation. Are the robots popular with the students? Chung Cha, the girl on the right, says, 'The robots are fun, but I think a real teacher is better. I hope robots don't replace teachers because I want to study languages at university and be an English teacher one day!'
