

AROUND THE WORLD

Session 1: Earth & Oceans

TODAY'S MISSION:

- **Play the 5-Second Rule!**
- **Learn "Continent" & "Ocean"**
- **Learn the 5 Oceans & Asia!**

THE 5-SECOND RULE!

Think fast! Speak fast!

NAME 3 COLORS...

YOU HAVE 5 SECONDS! GO!

NAME 3 SCHOOL ITEMS...

YOU HAVE 5 SECONDS! GO!

A large commercial airplane is shown from a low angle, flying towards the viewer against a dramatic sky with orange and yellow clouds. Below the plane, a tropical island with green vegetation and blue water is visible. The text "GRAB YOUR TICKETS!" is written in large, bold, white capital letters across the middle of the image. To the right of the text is a small icon of a blue and white airplane. Below the main text, the phrase "We are flying around the world!" is written in a smaller, light blue font.

GRAB YOUR TICKETS! ✈️

We are flying around the world!

A composite image of Earth from space, showing North and South America. The image is a composite of two satellite views. The top half shows North America and the surrounding oceans, with a bright sun rising or setting on the right side, creating a lens flare. The bottom half shows South America and the surrounding oceans, with a large hurricane visible in the lower left. A semi-transparent dark blue rectangular box is overlaid in the center, containing the word "CONTINENT" in large, bold, green capital letters, and a definition in white text below it.

CONTINENT

A massive piece of land. (There are 7!)

A vibrant ocean scene with a surfer riding a wave under a sunset sky. The water is a deep blue with white foam from the breaking wave. The sky is a mix of orange, yellow, and blue, with scattered clouds. In the background, there are steep, green cliffs and a small waterfall. A person is seen from behind, surfing on the wave.

OCEAN

A giant body of salt water. (There are 5!)

ASIA

The biggest continent! (China, Japan)

PACIFIC OCEAN

The largest ocean!

A composite image featuring a cruise ship sailing on the ocean, a tropical island with a volcano, and a sunset over the pyramids of Giza.

ATLANTIC OCEAN

INDIAN OCEAN

A polar bear stands on a large, broken ice floe in the Arctic Ocean. The bear is looking towards the camera. In the background, the Aurora Borealis (Northern Lights) is visible in the dark sky, displaying vibrant green and blue hues. The ice floes are illuminated by a warm, golden light, possibly from a low sun or moon, creating a dramatic contrast with the cool colors of the aurora. The overall scene is a stunning representation of the Arctic environment.

ARCTIC OCEAN

SOUTHERN OCEAN

MAP POINTING RACE!

Listen to the teacher. Run and touch the correct
Ocean or Continent!
