There are many words in English language. It's impossible to count the number of words in a language. Have you ever thought about where English words are from? Did you know many English words come from other languages?

Many basic English words come from Old English, such as, England, house, woman, man, child, bird, water and etc. Other English words come from Latin, like, family, number, school, educate. Some English words come from French. For example hotel and menu are two French words.

Today English is an international language. Thousands of English words come from other languages. Every year hundreds of words come into English from new technology, e.g., internet, text message, e-mail and ...

English speakers have "stolen" words from other languages and added them to English. That are known as "loanwords" or "borrowings," which are derived from other languages.

The next time you hear one, tell your friends where the word originally came from!

A sign language is a way of communicating by using the hands and other parts of the body. Sign languages are an important way for deaf people to communicate. Deaf people often use them instead of spoken languages. Spoken languages use sounds from the mouth and are understood with the ears. Sign languages use hands and are understood with the eyes. Deaf people can use sign languages more easily than spoken languages. Deaf people sometimes learn a sign language from their family, especially if their parents are deaf. But, most deaf children have hearing parents, so they learn a sign language from other deaf people. They may meet other deaf people at school or in the streets. Hearing people may learn to sign directly from deaf people. Or, they may learn a sign language by going to signing classes or by studying a sign language workbook, which can come with an interactive DVD.

1. Hearing people cannot learn a sign language. (true or false)
2. Sign languages are not important for deaf people. (true or false)
