liquid

• By Miss Melika Khalilpour

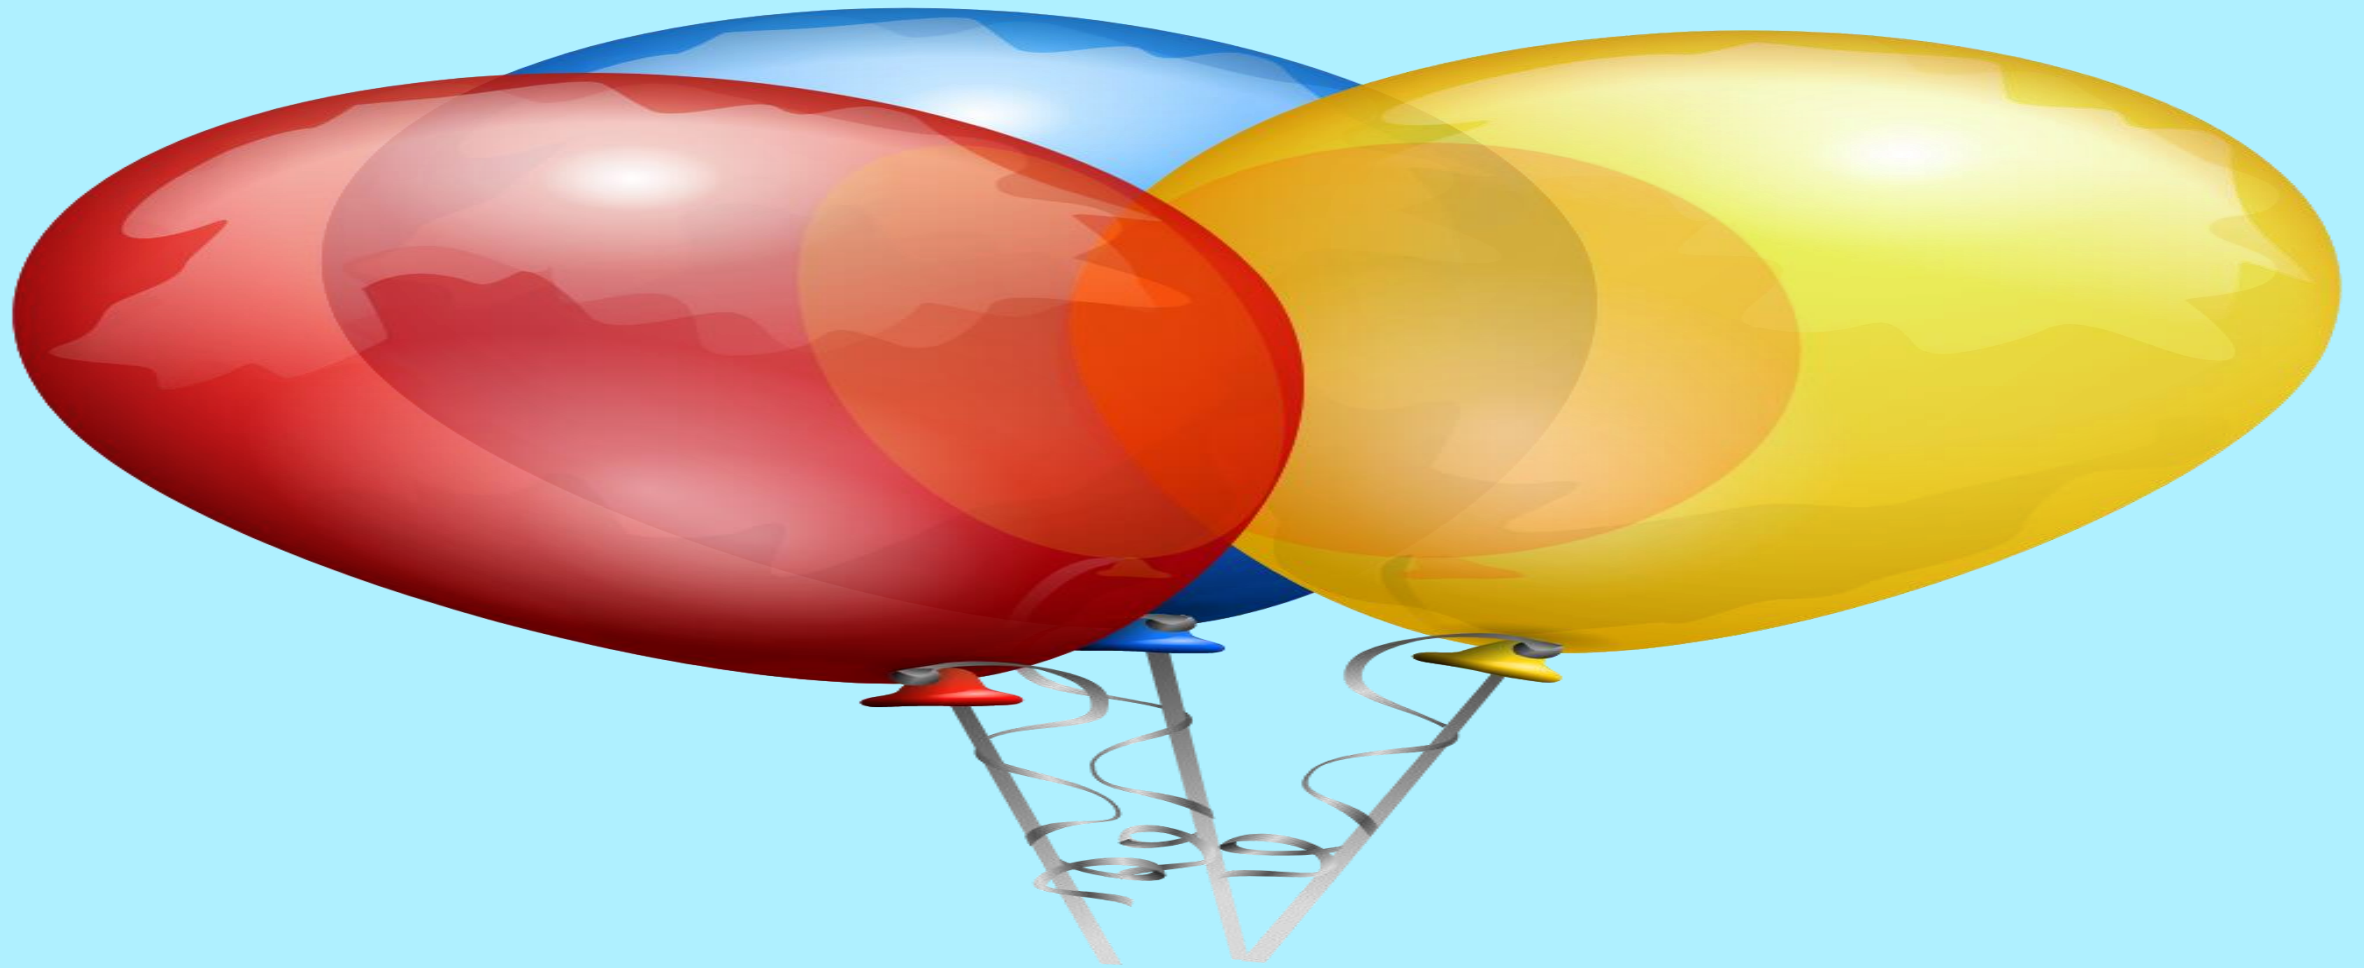

container

What's the shape of these containers?

- rectangle

What's the shape of these containers?

circle

What's the shape of these containers?

• circle

What's the shape of water?

- square

What's the shape of gas?

- circle

What's the shape of water?

• circle

What's the shape of gas?

- circle

What's the shape of water?

- rectangle

**So, liquid and gas things
take the shape of
containers.**
