

Hello everyone , are you ok ?.

hello

Let's review.

Now let's match and read.

Now let's match and read.

A

stew

B

dew

C

chew

D

sky

E

A

A

A

Let's dive into the sea!

Let's learn
more about
seas.

coral reefs

rainforest

seahorse

starfish

butterflyfish

Let's start a new page.

Skim read the text in 2 minutes.

24 Read. Then say *True* or *False*.

CLIL
SCIENCE

Save the Reefs!

Coral reefs are made of small sea animals and their skeletons. You can find coral reefs in the sea where it's hot and sunny. They are called the rainforests of the sea because a lot of fish and sea animals live on them. There are seahorses, sea snakes, starfish, butterfly fish, parrotfish and many more. There are a lot of pretty colours in the reef. How does this coral reef make you feel?

Now look at this coral reef. It's white and there are no fish or sea animals on it. The sea is too hot because of global warming and the coral is dead. Fish don't like dead coral. How does this coral reef make you feel?

Please help us save the coral reefs.

True or false.

- 1 There are coral reefs in cold seas. 
- 2 A lot of fish and sea animals live on coral reefs. 
- 3 There are parrots and butterflies on the reef. 
- 4 Dead coral is white. 
- 5 Global warming makes the sea too cold. 
- 6 Fish don't like dead coral. 

MINI-PROJECT
Make a poster about five of the sea animals in the text and write about them.

THINK!
Coral reefs need sunlight and warm temperatures. Name two places where coral reefs can't survive.

Read the text again and summarize it.

24 Read. Then say *True* or *False*.
