My new school in Tokyo is great. It's international, so I have friends from forty different countries! They always speak to me in English – their English is great. I'm learning Japanese. It was difficult at first, but my friends were kind when I said the wrong words. Now it's easy.

I love my school! I go to a special school in the mountains. Students go there to study winter sports. Every day, after studying Geography, Maths and other subjects, we do sport for three hours. We go skiing and snowboarding. Some students from our school went to the Olympics. I want to be a famous skier, too.

I live in my school because it's a boarding school. My friends and I all live in rooms next to the school. I love living with my friends, and the teachers are all very nice. In the evening, there are a lot of activities.

We can watch films or go swimming, but usually we have homework.

Matu, 12, Kenya

Read again carefully and answer:

- 1 Who lives in a school?
- 2 Who goes to school in Tokyo?
- 3 Who does sport for three hours a day?
- 4 Who has got friends from forty countries?

Say what each one is
about.
