Read and listen. Who did Daniela go to the water park with?

Read the text in 1 minute and say which fun places they talk about?

Nigel says:

Have you ever tried Japanese food? I went to a traditional Japanese restaurant last weekend and I really enjoyed it. The chef cooked our food at the table! He was really talented, and everything was delicious! I'd love to go there again one day.

Elsa says:

I've been to a great new leisure centre in my area. It opened last month. There's a gymnasium, a swimming pool, and an outdoor sports field, so you can play lots of different sports. There's also a climbing wall, but I haven't tried that yet.

Ruben says:

There's a big amusement park near my town. I've been there five or six times, and I love it. I've been on most of the rides, but I haven't tried the biggest rollercoaster. I'm not tall enough, so I have to wait until I'm older. I don't think that's fair!

Daniela says:

The best place to go in my area is the new water park. I've been there twice. The last time, I went with my cousins, and we had a fantastic time. My favourite thing is the big water slide, but there's also a log flume. Last time we all got very wet on the log flume but it was great fun!

Now listen and read. Answer the questions on the next slide. **Then read it aloud.**
