

At school

My name is Martin and I am 10 years old. I go to a primary school in Birmingham. I like school a lot. There are 30 students in my class, girls and boys. Most teachers are nice and so is the school principal. Next to me sits my best friend Tony. Florian is also a friend. In my backpack I have my books, notebooks pens, crayons, pencils and an eraser. I need the ruler for math. I don't like it because I'm not good at that. I do not understand the tasks properly.

It's always funny during the break. We eat and drink something. In the big break we go to the yard and play football. This break is always too short.

I don't like all school subjects the same. Sport is my favourite subject. Sport could be every day. I am learning two foreign languages. German and French. German is a difficult language. I have to do a lot of exercises. I'm better in French. I make only a few mistakes. I also like biology and art. Biology is interesting. I like animals. I am also very interested in history. Soon we will have holidays.

Before the holidays we have to write two school papers. One in German and one in English. I hope I'll get a good grade.

Answer the questions in full sentences

1. What is the boy's name?

2. Where does he live?

3. Are there only boys in his class?

4. How are the teachers?

5. Why doesn't he like math?
