

# Sun

The sun is a star. It is a ball of very hot gas. Without the sun, there would be no animals or plants on earth. The sun is a lot bigger than the Earth. It is a very long way from the Earth and it is very, very hot. The Earth goes round the sun. Never look at the sun as it can damage your eyes.

Answer these questions!

1. Is the sun a planet or a star?  
.....
