My clever girls; please read the text and answer to the questions.

Volleyball is a fun sport. People play it on the beach or in the volleyball court. There are two teams. Each team has six players. They throw the ball over a net. The ball must not touch the ground. Players use their hands and arms to throw the ball. The team that gets more points wins the game. Many kids like to play volleyball with their friends after school.

- 1.Where do people play volleyball?
- 2.How many players are in one team?
- 3.What do players use to throw the ball?
- 4.When do kids play volleyball with their friends?
