### \* 5.3. Skeletons and movement

#### Muscles make us move

Bones are strong and hard, they cannot bend but your body can move in many ways.

All animals with skeletons have **muscles** attached to the bones. Muscles are the parts of the body that allow us to move in many different ways. Muscles are found under the skin. They cover the skeleton and give your body the shape that you have.

Muscles always work in pairs. One muscle contracts and pulls on the bone it is joined to. This makes the bone move. The opposite muscle relaxes.

37

**LOOK!**

I/You/He/She/ We/They	will	go hiking.
	won't	
	might	

**TIP!**

I'll = I will  
 you'll = you will  
 he'll/she'll = he will/she will  
 we'll/they'll = we will/they will

**GRAMMAR**

7 Listen and tick (✓), cross (X) or write (?). Then look and say.

	go camping 	go hiking 	go shopping 
Pete	?	✓	X
Ruby			
Jack and Sam			

**TIP!**  
 will = ✓  
 won't = X  
 might = ?

Pete might go camping. He'll go hiking. He won't go shopping.

8 Read and write T = True or F = False.

Hi Julie,  
 What are you going to do in summer?  
 I'm going to stay at home. Here's a photo from last summer. It was very hot, so it might be warm and sunny again here. I'll go camping with my family near the sea. We'll go hiking around the coast. We'll go swimming in the sea, but it might be cold! My mum will go shopping, but I won't go with her.  
 Write soon,  
 Rebecca

- 1 Rebecca won't go to another country in summer.  T
- 2 It will be warm and sunny at home in summer.
- 3 Rebecca and her family won't go camping in summer.
- 4 It might be cold in the sea.
- 5 Rebecca won't go shopping with her mum.
