Read 1•18

What is OUR WORLD made of?

Everything in our world comes in three different states: solid, liquid, or gas.

Solids

We can see and feel solids. Some solids are hard, and some solids are soft. Trees and feathers are solids. You're a solid, too!

Liquids

A liquid is a thing that can flow. Some liquids are thick, and some liquids are thin. Juice and milkshakes are liquids. Can you think of other kinds of liquid?

Gases

The air that you breathe is a gas. We can't usually see a gas, but sometimes we can feel it when it moves. On a windy day, we can feel the wind on our bodies.
