Mr. Jenkins
Science teacher

Scene 2

Think What is the effect of the ice cream melting?

Mr. Jenkins: What's wrong? Why's everyone so sad?

Ms. Woods: It was our job to bring the ice cream for the party, but it melted. Now we can't have ice cream.

Mr. Jenkins: Sure you can! You can make ice cream. I can teach you!

Students: Yippee!

Mr. Jenkins: OK, kids. Get big and small plastic bags, cream, sugar, vanilla, and salt. Then come to my classroom.
