

24 The parts of a flower

sepals, petals, anther, stamen,
stigma, ovary, pollen

Identify and describe parts of a flower

1 Colour in the different parts of the flower.

Use these colours:

green - **sepals**

blue - **petals**

orange - **anther**

black - **stamen**

yellow - **stigma**

brown - **ovary**

Remember:

Practise saying these words aloud. Try to use them when talking about the topic.

What you have learnt

- Flowers have four main parts: green sepals protect the flower bud, coloured petals attract insects, male stamens make pollen and the female carpel contains eggs.
