

4.2. Magnetic poles

Explain the way magnets work.

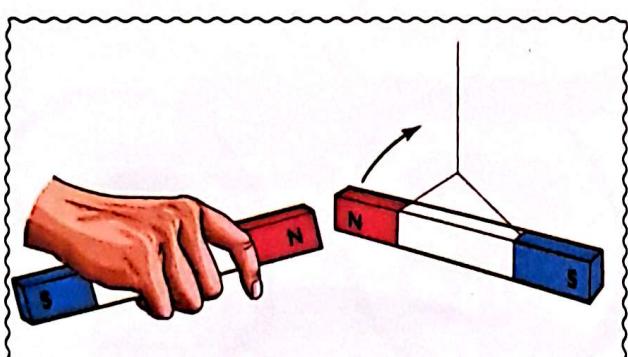

Look at the picture of the two magnets.

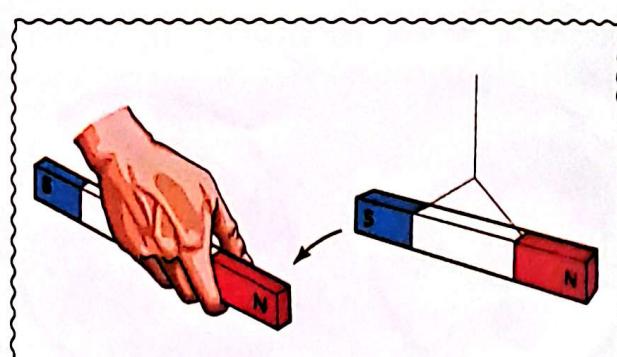

What do the letters N and S stand for on the bar magnet?

N is the ~~North~~ ↑

S is the ~~South~~ ↓

Like poles ~~push away from each other. They repel each other.~~ ^{pull}

Unlike poles ~~pull towards each other. They attract each other.~~ ^{push}

Underline the correct word in these sentences:

Like poles attract / repel each other.
