### 6.7. Hearing and touch

#### Our five senses

Look at Anita, draw arrows from the labels to the parts of her body that give her each sense.

Which sense would I use?

Look at each picture. Would you use the sense of hearing or touch?

I would use my sense of hearing

I would use my sense of taste

I would use my sense of sight

I would use my sense of hearing

I would use my sense of touch

I would use my sense of hearing

# Taste and smell

Senses of smell and taste often work together. They help us to avoid bad food.

Take care when smelling things in class. They are dangerous. Always smell from at least 10 cm away.

## Smell and taste!

Smell five foods. Record how they smell and taste.

<p>I smelled a kiwi fruit. It smelled freshest.</p>	<p>I tasted a kiwi fruit. It tasted great.</p>
<p>I smelled a cup cake. It smelled good.</p>	<p>I tasted a cup cake. It tasted yummy.</p>
