

# SCIENCE

**There are ways that we can  
change materials.**

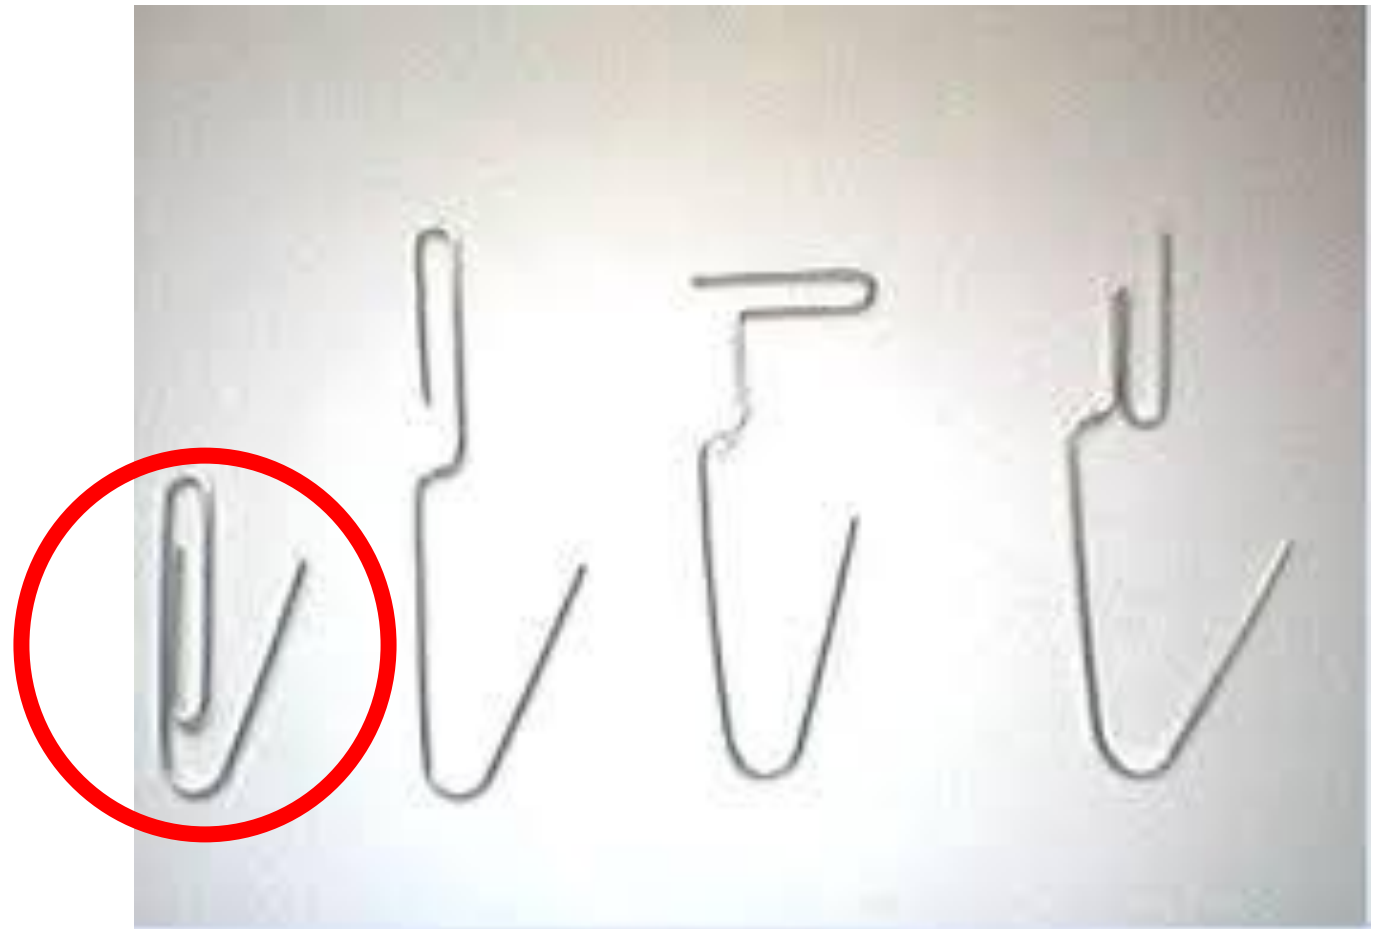

# Bend

I can bend the straw.

I can bend the paper clip.

I can bend my arm.

Cat can bend its tail.

**Twist**

I can twist my hair.

I can twist my clothes.

I can twist my belt.

# Squash

I can squash the sponge.

I can squash the ball.

I can squash the bottle.

# Stretch

I can stretch my arms.

I can stretch a band.

I can stretch the slime.

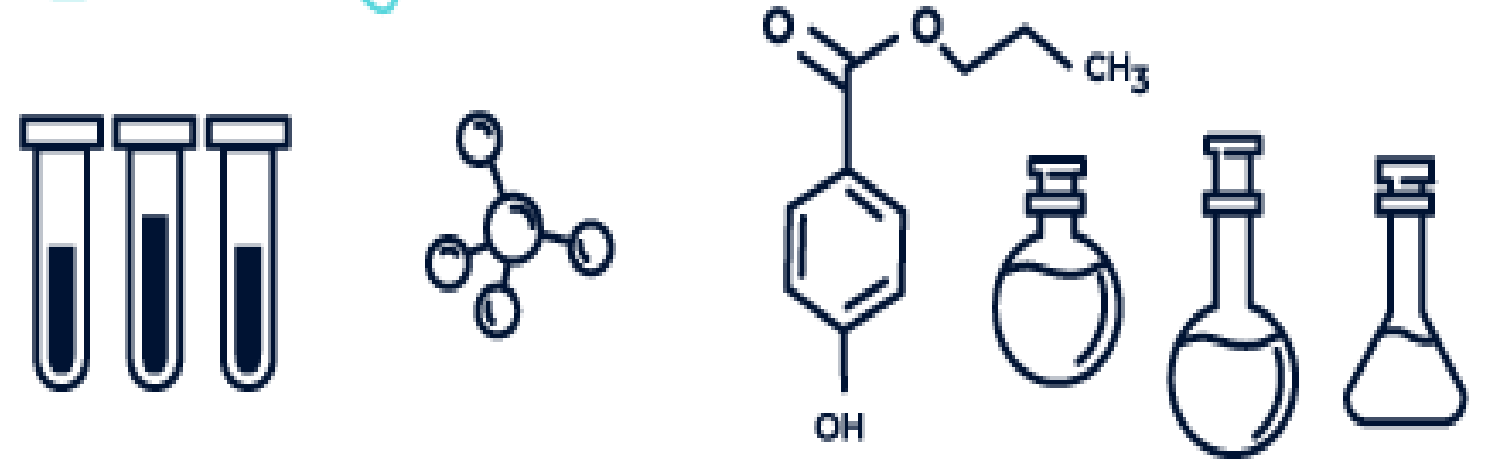

I can stretch the spring.

# SCIENCE

I use my sense of sight to see the bird.

I use my sense of touch to feel the cold and hot.

I use my sense of hearing to hear the bell.

I use my sense of touch to use the mobile.

I use my sense of hearing to listen to music.

I use my sense of taste to eat food.

I use my sense of smell to smell the flower.

Your hand feels cold.

TASTE

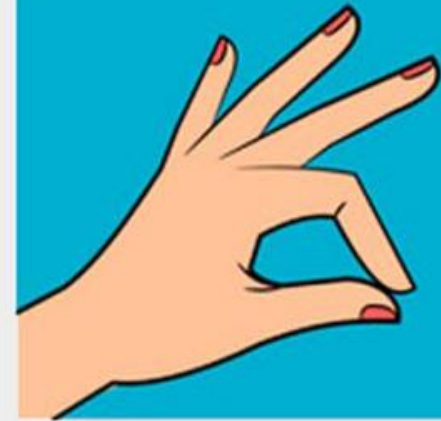

HEARING

SIGHT

SMELL

TOUCH

This flower smells nice.

TASTE

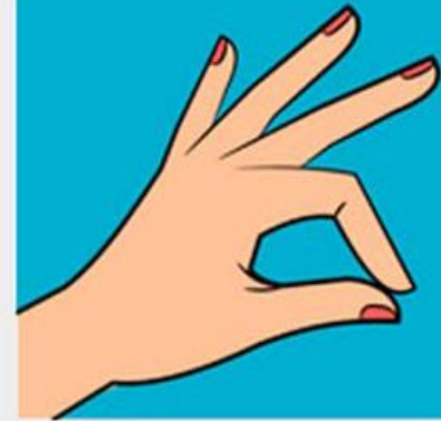

HEARING

SIGHT

SMELL

TOUCH

The pie tastes sweet.

TASTE

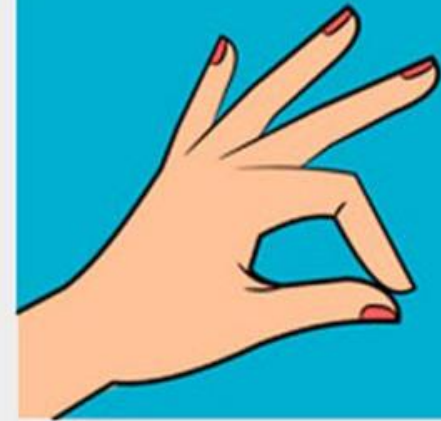

HEARING

SIGHT

SMELL

TOUCH

My mom is beautiful.

TASTE

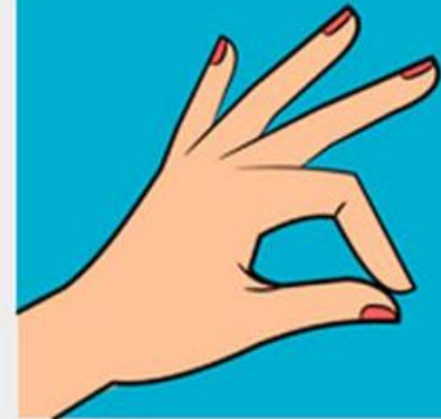

HEARING

SIGHT

SMELL

TOUCH

I love this music.
