| ۷ | <p>G. Read the following passage and answer the questions.</p> <p>The world of science is really amazing. Human is inventing more and more new things. Most people think that only a clever person can invent, but this is not true. Many of the devices we use in our daily life are actually inventions of some ordinary people and not great scientists. Toothbrush is a good example. William Addis, was not a scientists, had an idea that helped him to clean his teeth. He took a small bone, made some small holes in it, and then put some thin hard pieces of plastic in the holes. He was making a tooth brush this way. After a while, he developed this device and started his business of selling these tooth brushes.</p> <p>1. How did William Addis invent tooth brush?</p> <p>2. Was William Addis an ordinary person?</p> | | | | ۲ نمره |
