

Work in a group.

Talk about each of the things shown here. Decide if each one is living or non-living.

Copy and complete the table. Add more items if you can.

Living	Non-living
	soda can

Things that are alive:

-  need air to breathe.
-  need water and food.
-  can move.
-  have senses.
-  can produce young.
-  grow.
-  produce waste products (**excrete**).

**These are the seven life processes.****Questions**

1. List the seven life processes.
2. A horse can run, eat, drink and see.

Is it alive?

3. A toy kite moves and flies in the air.

Is it alive?

Living or non-living?

With a partner, sort pictures of things into two groups:

- ◆ living things
- ◆ non-living things.

You will need:

a large sheet of paper, pens and a selection of pictures of things that are living and non-living.

Use the seven life processes to help you decide where to put each picture.

Were there any that you found difficult to place?

If so, explain why.
